

## Mini Hydraulic Sausage Filler WF-12

Hydraulic filling unit from Switzerland.  
Completely made of stainless steel.  
All kinds of casings are permitted.  
Stepless filling.  
Hygienic design for convenient disassembly and cleaning.  
Excellent for hotels, restaurants, supermarkets and butcheries.

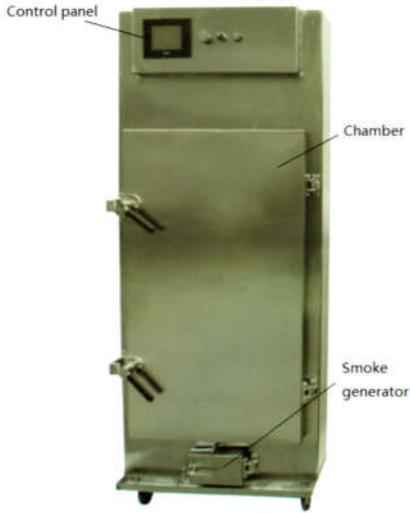

**Volume:** 12 litres  
**Productivity:** 150 kg/h  
**Power:** 1.1 kw  
**Dimension:** 530 \* 380 \* 1170 mm  
**Weight:** 150 kg

## Semi-automatic Sausage Tying Machine WZC-100D (for sausage portion)

Completely made of stainless steel.  
Microcomputer control for smoothly and fluently working.  
Flexible in weight, small in size and low in noise.  
Saving sausage casings up to 20%.

**Portioning capacity:** up to 100 portions /min.  
**Portion lengths:** 30-260mm.  
**Dimension:** 790mm\* 410mm \* 470mm.  
**Power:** 200w.  
**Weight:** 49kgs.

### Mini Smoke Oven YX-50

Same functions with industrial smokehouse, drying, smoking, cooking and grilling.

Special design for small factory, butchery, canteen, restaurant or laboratory.

Easy to move and clean.

Manually or automatically controlled by PLC and touchscreen.

Programs can be adjusted freely according to the special recipes.

The integrated smoke generator adopts for woodchips or sawdust.

Made of high quality stainless steel SUS304.

**Capacity:** 25 – 50 kg/batch

**Highest temperature:** 120 °C

**Power:** 9.5 kw 220/110v 50/60hz single phase

**Dimension:** 800 \* 860 \* 1910 mm

**Weight:** 350 kg

### Vacuum Marinating Mixer WGR-120

The machine is special designed for massaging, marinating and mixing the meat materials in large supermarkets, restaurants, central kitchens, hotels and factory labs.

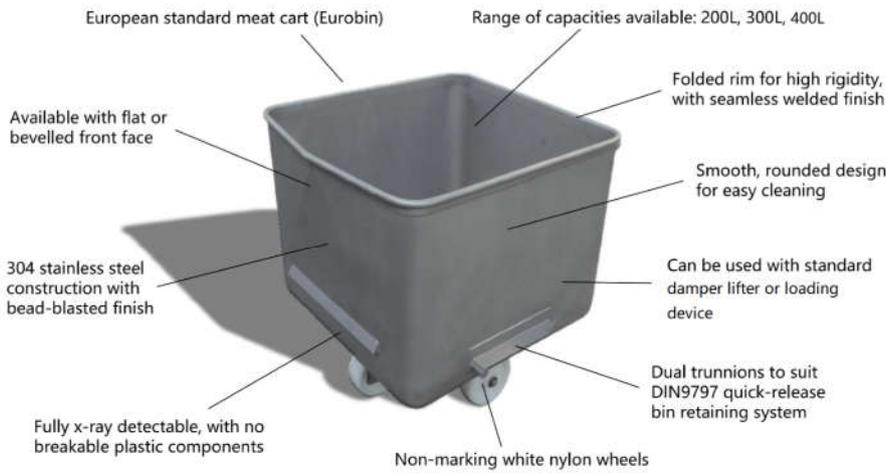

The volume 120 litre is perfectly balanced between size and flexibility. It can be moved easily, and also knead and mix the materials thoroughly in the appropriate drum. Moreover, the rolling bars are possible and easy to be replaced for the proper processes of different products. When it is on operation, the integrated PLC will control everything in right condition including the appropriate vacuum.

Type	Capacity	Power	Tilt Angel	Weight
<b>WGR120</b>	72 kg	1.5 kw	-36°to 90°	190 kg
